PTC Fundraisers

Looking for holiday gift ideas?? Please consider the **Hillside PTC Gift Book Program**. When you donate \$15 to the Hillside PTC Gift Book Program, the name of the person to whom you are dedicating the book will have their name printed and posted into a book at the Hillside Media Center. All proceeds from this program directly benefit the Hillside Media Center. It's not only a great way to honor a special person in your life, but you're also contributing to the school community. To participate, please follow the instructions on the Gift Book Program form that is included at the end of this newsletter.

Box Tops: We are continuing to collect Box Tops for Education. PLEASE be sure to save them! Collection sheets and a collection box for sheets/box tops are located at the PTC bulletin board near Lori's desk. We hope to collect many this year, so please send them in!!!

Amazon Smile: When you shop Amazon, be sure to shop via the Amazon Smile link and designate the Hillside Parent Teacher Council Trust as your charity of choice. Amazon will donate a portion of their proceeds back to the PTC every time you purchase eligible items. It takes very little effort, but the pay-off for the PTC is great!

Seeking Volunteers

The PTC depends very heavily on parent volunteerism and cannot operate without volunteers. We are fortunate to have many very dedicated parents who step up each year to run committees, but **we are always looking for more help!** Below are some great volunteer opportunities we hope you will consider:

The Hillside Spring Fling/Carnival will be back this spring by popular demand! Our Co-Chairs are looking to assemble a team to help them plan the event. Some examples of various roles within the committee are: Inflatables Coordinator, Baby animal rental Coordinator, Prize tent, Food/drink/snack Concessions, Crafts, Small Game Coordinator, and Cake Walk Coordinator. If you'd like to get more involved and meet some fun new people than we encourage you to join this team! Please reach out to Melissa Jacoby at meljacoby@gmail.com.

Hillside Elementary School

Health Office

Dear Parent or Guardian:

Several students in Hillside have been diagnosed with **strep throat**.

Please take these precautions:

1. Watch your child for signs of sore throat and other signs of strep (headache, fever, stomachache, rash, swollen and tender neck glands). On occasion symptoms may be only a headache and stomachache, no sore throat at all.
2. If your child develops a sore throat and any of these other signs, please see your health care provider, tell her or him that another child in the program has strep, and ask to have your child tested for strep throat.
3. Tell us if your child has been diagnosed with strep infection.

Information about strep throat:

What is it? *Strep throat* is an infection caused by streptococcus bacteria. People with strep throat usually have a very red, painful throat, often with fever, and sometimes with headache, abdominal pain, and nausea and/or vomiting. Most sore throats, however, are caused by viruses and are not treated with antibiotics.

How do you get strep throat? *Strep throat* can affect persons of any age but is most common in children. The bacterium is spread person-to-person through secretions and is easily passed in households. It takes 2–5 days to become ill. People with strep throat are generally most infectious when they are sick. They continue to be infectious until they have received treatment for a day or so.

How is it diagnosed? A laboratory test, such as a throat culture or a rapid test is needed to confirm a strep infection.

How is it treated? Strep infections are usually treated with an oral antibiotic, starting either with characteristic symptoms or after a strep test is positive. Sometimes an injection of antibiotic may also be used to treat strep.

Why is it important that your child receive treatment? There are two main reasons:

1. **Treatment reduces spread.** If not treated or not treated long enough, your child may continue to spread the infection to other members of your family or to other children.
2. **Treatment with antibiotics can usually prevent rheumatic fever or other rare, but possibly dangerous complications.** Rarely, some children with strep throat can develop complications like blood infections or rheumatic fever, which can damage the heart or joints.

When can your child come back to the program? Children with strep infections may return to school after taking medicine for at least 24 hours and their fever is gone.

How do you stop the spread of strep throat?

1. Thoroughly wash your hands and your child's hands after wiping noses and before eating or preparing food.
2. Wash dishes carefully in hot, soapy water or in a dishwasher.
3. Do not allow the sharing of food or allow children to share cups, spoons, or toys that are put in the mouth.
