Some of your donated books are put directly into circulation in our Media Center and classrooms; others are sold at the sale, with all proceeds returned to the Media Center for the purchase of new materials. All teachers bring their classes to visit the sale, and parents are encouraged to shop any time – and prices are very low so that everyone can find a treasure. We will be collecting books for the next few weeks in the lobby, so please consider donating your used books to benefit Hillside! If you have any questions please contact Sharon Ayres ([soayres@gmail.com](mailto:soayres@gmail.com)) or Joanie Daly ([jdayadaly@gmail.com](mailto:jdayadaly@gmail.com)).

### A Message from Mrs. Greiff...

With all the illnesses going around, please refer to the attached chart, which outlines the differences and similarities between the common cold and the flu. Also attached is a letter to all parents from Barbara Singer, Director of Health Services for NPS regarding the flu. If you have any questions, please feel free to call Debbie Greiff at 781-455-0461 x228.

2018 Carol Virginio Memorial Jump Rope for Heart

Attention parents: Next week, information packets about our 14th annual Carol Virginio Memorial Jump Rope for Heart will go home with all of our students. For more information about Carol and Jump Rope for Heart in general, please visit our Hillside Physical Education website at <http://hillsidepe.weebly.com/jump-rope-for-heart.html>

Last year, Hillside School contributed just over \$23,500 to the American Heart Association bringing our 12 year total to a whopping \$170,000. Raising money for the AHA is optional for our students and is something that should be intrinsically motivating. Of course, the reward prizes that the AHA share with students who raise money sometimes make this lesson difficult and is something we spend a great deal of time discussing with students. Feel free to supplement these discussions at home and just as an FYI, there is a checkbox on the packet that students can check if they wish not to receive prizes.

Over the next several weeks, each time your children come to P.E., we'll spend some time learning about jumping patterns, short rope skills, partner short rope skills, long ropes skills, and even learn how to jump double dutch based on grade level. Feel free to encourage students to continue to practice at home and we look forward to honoring loved ones who have been affected by heart disease, heart attacks, and/or

stroke on February 16th during our day-long Jump Rope for Heart celebration.

If you have any questions, feel free to email us at [rob\\_tatro@needham.k12.ma.us](mailto:rob_tatro@needham.k12.ma.us) or [catherine\\_bove\\_cournoyer@needham.k12.ma.us](mailto:catherine_bove_cournoyer@needham.k12.ma.us)

### Community Service Learning:

Throughout the school year many students at Hillside School are participating in community service learning activities. In clusters, the Rock Star cluster is participating in the Kindness Project. This project involves collecting rocks and writing inspirational words on small rocks to pass on to others. These rocks can be given to grandparents, family, friends, and strangers to bring a positive message into their lives. They can also be left on town trails, paths, and other public areas. If you would like to learn more visit the project website at : <http://thekindnessrocksproject.com/>

Dear Families,

Happy New Year! I thought I would provide you with some information regarding influenza (the flu), as we are in “flu season”, and according to the Centers for Disease and Prevention (CDC), influenza activity has increased. Flu season peaks between December and February but the flu can occur between October and May.

Influenza is a respiratory viral illness that is contagious and can be spread from up to 6 feet away. Influenza is spread through “droplets” which occur when infected people cough, sneeze or talk.

Prevention-As influenza is contagious, it is important to take the following measures to prevent the spread of the flu:

- Get vaccinated annually with the injectable flu vaccine
- Avoid close contact with people who are ill
- Stay home until you are fever free for 24 hours off of all fever reducing medications
- Cover your nose/mouth with a tissue when coughing/sneezing
- Don’t touch your nose/mouth/eyes
- Proper handwashing (washing with warm, soapy water for at least 20 seconds)
- Use a disinfectant cleaner to wipe down common items such as doorknobs, computers, phones, etc.

Symptoms of flu include: fever/chills, cough, sore throat, runny nose or nasal congestion, muscle or body aches, headaches, and fatigue.

Treatment includes: rest, hydration, analgesics/fever reducing medication such as Acetaminophen and/or Ibuprofen, and antiviral medications (as prescribed by your healthcare provider.) If you have symptoms of the flu, check with your healthcare provider promptly. Antiviral medications may be an option and when taken within 48 hours of symptoms, these medications may lessen the duration and severity of the flu. In addition, antivirals that are taken after 48 hours may still be effective.

Most people recover in a few days to a week. For more information, visit the following websites:

<https://www.mass.gov/influenza> <https://www.cdc.gov/flu/about/index.html>

Stay well!
